Grease guns and accessories

Product	Image	Description
HP-One hand grease gun		Cartridge gun for operation with one hand. Compact design for lubrication points that are difficult to access, for example. For processing greases in the SR-screw-in cartridge.
HP-Two hand grease gun		Standard cartridge press. High lubrication pressure with low effort. For processing greases in the SR-screw-in cartridge.
VPS-One hand grease gun		Cartridge press with vertical cartridge position. Also with Powerswitch system (variable grease quantity / variable pressure). For processing greases in the SR-screw-in cartridge.
High pressure tube		High-pressure hose (30 cm) incl. hydraulic grip coupling.
Hydraulic gripper coupling for conical grease nipple		Replacement coupling, for connection to the high-pressure hose (M10x1). Suitable for conical grease nipples to DIN 71412 and SAE. (PU 10 pcs.)

Product	Image	Description
Sliding coupling with interlock system		Sliding coupling with 7-fold ball locking, for connection to the high-pressure hose. Secure hold on conical grease nipples to DIN 71412 and SAE, no slipping of the coupling from the grease nipple.
Sliding coupling for flat grease nipple		Sliding coupling incl. quick-release connection. Fully assembled for connection to the hydraulic gripper coupling.
Adapter for the 250 g screw-in cartridge		Suitable adapter for the respective HD or VPS grease gun. Exclusively for Rivolta F.L.G. 2-0 (250 g screw-in cartridge).
Curved nozzle tube with pointed nozzle		Curved pointed nozzle suitable for funnel lubrication nipples (e.g. for chuck lubrication) for direct connection to the HP-grease guns (M10x1).
Cartridge adapter		Adapter (lube adapter; bellows) for holding the SR-screw-in cartridge.
Sponge support		For use with the Rivolta 100 g lubricant tube; e.g. Rivolta S.K.D. 4002 and Rivolta G.W.F.

Spray systems and accessories

Product	Image	Description
Handsprayer universal		For processing cleaning products. Proven and robust 0.5 l hand sprayer with direct scaling for easy adjustment of the mixing ratio. Adjustable spray nozzle, spray pattern: spot jet to spray mist.
Profi pressure sprayer		For processing cleaning products. Robust and durable 1 l pressure sprayer with adjustable spray nozzle. Spray pattern: Spot jet to spray mist.
Pressure sprayer universal		For processing aqueous cleaning products. Large filling volume of 1.5 l and side-mounted pressure release valve. Proven and robust hand sprayer with adjustable spray pattern: round jet to spray mist.
Foamer		For processing aqueous cleaning products. Large filling volume of 1.5 l and side-mounted pressure release valve. The factory-fitted foam nozzle produces a stable, active cleaning foam.
High pressure cleaning device		Mains-independent high-pressure sprayer 4 l (6 bar) in special design with spiral hose, special shut-off valve and nozzle. For processing e-cleaning products. For example, for processing Rivolta S.L.X. 500.
Extention		Extension hose (30 cm) for connection to the Profi pressure sprayer.
Spray-Boy		The reusable spray can attachment enables precise spraying/dispensing and prevents finger fatigue and soiling. (PU 5 pcs.)

Outlet and barrel taps

Product	Image	Description
Flo-King		Drum tap for 200 litre metal bunging drums. Including adapter with 2 inch coarse thread for 220 kg plastic drums.
Aeroflow Tap 2 inch		Outlet tap for 220 kg plastic drums with 2 inch coarse thread, including bung plug.
Aeroflow Tap DIN 51 / DIN 61		DIN 51: Outlet tap for 10 litre plastic jerrycans, union nut with internal DIN 51 thread. DIN 61: Outlet tap for 20 litre (and formerly 30 litre) plastic jerrycans, union nut with internal thread DIN 61.
Spout adapter		Adapter for attaching to the Aeroflow Tap DIN 51 or DIN 61. For easy pouring from the canister and filling of small containers.

Cleaning pads

Product	Image	Description
Cleaning pads		Scouring pad. For the removal of stubborn / resinous soiling. Particularly suitable for impregnation with Rivolta cleaning products. (PU 10 pcs.)

Adhesive guns and mixing nozzles

Product	Image	Description
Profi-cartridge gun		For 290 ml cartridges with ergonomic handle and swivelling tube.
Hand gun		Made of a metal/plastic combination for high-viscosity 2-component adhesives. Applicable for 50 ml double cartridges. A solid design generates increased squeeze-out pressure so that viscous or highly viscous products can be easily dispensed.
Quadromixer		The Quadromixer is a 4-way mixing nozzle that is ideally suited to two-component cartridges (B-system) such as RivoGLUE 2010 EX. The special spirals ensure that the adhesives are mixed evenly and thoroughly. The honeycomb structure is designed so that the adhesive is mixed optimally via the shortest possible route. This longer mixing path enhances product safety. (PU 10 pcs.)
Static mixer		The conventional mixing nozzle is also suitable for two-component cartridges with a B-system and has separate connections for both components. The simple bayonet lock allows for quick and error-free fitting. (PU 10 pcs.)

Electronic equipment and accessories

Product	Image	Description
High pressure cleaning device SF 23 Pro		Device on mobile frame, 230V/50Hz, max. operating pressure 180 bar, fully equipped with safety spraying equipment: - High-pressure manual gun with dead man's safety device - Flexible spray pipe incl. flat jet nozzle and contact protection - Special high-pressure hose, double insulated, 5 m - Material storage container 5 l - Special equipment available in AuS version
High pressure hand gun with dead man guard		Standard hand gun for high-pressure cleaning device. With flexible spray pipe incl. flat jet nozzle and contact protection.
High pressure hand gun BG-Variant		BG version with dead man's safety device is equipped with an additional hand protection shield (for live working).
Flat jet or round jet nozzle with contact protection		Replacement or complete nozzle unit with contact protection and flexible spray pipe with flat jet nozzle or alternatively with round jet nozzle (for powerful, spot cleaning).
Special high pressure hose, double insulated, 5 m		Replacement or extension hose for the high-pressure cleaning device SF 23 Plus.
Double spout 1/4 inch		Coupling piece for connecting two special high-pressure hoses.
Suction device		For direct removal of the electric cleaner from the drum, as an alternative to the 5 l top container.

Electronic equipment and accessories

Product	Image	Description
Wet/Dry vacuum cleaner		For safe, fast and thorough pre-cleaning and drying of electrical systems.
Spare brush		1 ring brush in size 6.
Brush set		1 ring brush each in size 4 and size 6.
Spare pump for older cleaning tables (RT 12 + RT 15)		Available with a standard or special seal (Rivolta M.T.X. 60 forte) for use with our KW cleaners in the cleaning table.

More equipment

Product	Image	Description	Adress
Lubrication accessories		Supplier of accessories for the processing of Rivolta and CASSIDA greases.	MATO GmbH & Co. KG Benzstraße 16-24 63165 Mülheim/Main T: +49 (0) 6108 906-0 F: +49 (0) 6108 906-120 www.mato.de mato.germany@mato.de
Cordless grease gun		Mains-independent processing of greases in the e.g. 400 g pull-off cartridge and 500 g screw-on cartridge. Incl. adapter for the 500 g screw-in cartridge.	Bremer & Leguil GmbH Am Burgacker 30 - 42 47051 Duisburg Tel. +49 (0) 203 99 23-0 Fax +49 (0) 203 2 59 01 www.bremer-leguil.de info@bremer-leguil.de

Product	Image	Description	Adress
Automatic lubrication systems		Lubricant dispenser for the 500 g screw-in cartridge for connection to the mains (KPS-24V version) or with a mains-independent battery (KPS-Bat version).	Meyer GmbH Bertha-Benz-Str. 5 75438 Knittlingen T: +49 (0) 7043 8041 F: +49 (0) 7043/2612 www.meyer-schmiersysteme.de info@meyer-schmiersysteme.de
Elevator brush		Lift brush for lubricator. For clean and effective lubrication of lift rails.	Bremer & Leguil GmbH Am Burgacker 30 - 42 47051 Duisburg Tel. +49 (0) 203 99 23-0 Fax +49 (0) 203 2 59 01 www.bremer-leguil.de info@bremer-leguil.de
DFP 500 Compressed air grease gun		Professional pneumatic grease gun for lubricating all types of machinery, e.g. commercial vehicles and construction machinery. Greases in the 500 g screw-in cartridge can be used.	Bremer & Leguil GmbH Am Burgacker 30 - 42 47051 Duisburg Tel. +49 (0) 203 99 23-0 Fax +49 (0) 203 2 59 01 www.bremer-leguil.de info@bremer-leguil.de
Barrel pumps and keys		Supplier of various laboratory equipment and accessories.	Bürkle GmbH Rheinauen 5 79415 Bad Bellingen T: +49 (0) 7635 82795-0 F: +49 (0) 7635 82795-31 www.buerkle.de info@buerkle.de
Cleaning systems		Supplier of washing machines for the use of aqueous Rivolta cleaning products.	Georg Render GmbH Sölterstraße 31 32107 Bad Salzuflen T: +49 (0) 5208 6595 F: +49 (0) 5208 6570 www.render-gmbh.de info@render-gmbh.de
Lubricant dispenser		For the universal, effective and safe lubrication of machines.	Bremer & Leguil GmbH Am Burgacker 30 - 42 47051 Duisburg Tel. +49 (0) 203 99 23-0 Fax +49 (0) 203 2 59 01 www.bremer-leguil.de info@bremer-leguil.de
Ultrasound equipment		Supplier of US appliances for use with Rivolta cleaners.	Elma Schmidbauer GmbH Gottlieb-Daimler-Straße 17 78224 Singen T: +49 (0) 7731 882 0 F: +49 (0) 7731 882 266 www.elma-ultrasonic.com info@elma-ultrasonic.com
