Rivolta®

bremer & leguil

Battery-powered high-pressure cleaner

Off-grid operation of the Rivolta safety cleaners

The benefits at a glance

- Battery-powered airless sprayer
- High spray pressure
- Very low material consumptio
- Compact, easy to handle and lightweight
- Safety spraying equipment, such as a high-pressure hand-held spray gun with a deadman's switch and a specially designed, double-insulated high-pressure hose

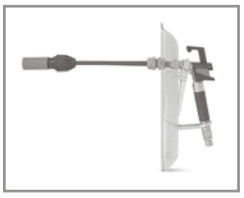

Property

The **Battery-powered high-pressure cleaner** is the ideal sprayer for using our Rivolta safety cleaners without the need for a mains power supply. The unit is compact, portable and lightweight, making it suitable for use in various locations around the workplace. The 4.7-litre material reservoir ensures high operational readiness and convenient transport of both the unit and the cleaning solution. The unit also allows for maximum freedom of movement and is ready for use anytime, anywhere on the construction site.

Attachments

• Flexible spray hose with a round-spray nozzle and touch protection
• High-pressure hand-held spray gun in BG configuration. Includes a flexible spray lance with a special nozzle in either a flat or round spray version, touch protection and an additional hand guard (see image on the right. This is optional equipment, particularly for wet cleaning work on live electrical installations)

• Special high-pressure hose with double insulation available as an optional extra
• Double coupling for connecting two special high-pressure hoses

Scope of delivery

Battery-powered high-pressure cleaner, infinitely adjustable up to 110 bar, with safety spray kit comprising:

• High-pressure hand-held spray gun with deadman's switch
• Special high-pressure hose with double insulation
• Flexible spray lance with flat spray nozzle and touch protection
• Pressure regulator with pressure gauge
• 4.7-litre material reservoir
• Charger and second battery included
• Earthing cable

Further services

• Assembly of the cleaning unit ready for operation
• Training for operators on how to use the high-pressure cleaning unit with our safety cleaning agents

General information

Subject to changes of construction.

	Value
Type of device	Spraypack 18 V
Battery performance	2 batteries, each 4 Ah/18 V
Max. flow rate	0,9 liter/min.
Operating pressure	max. 110 bar
Weight	5,5 kg

Further accessories can be found in our accessories brochure.
