

N.I.T.

Hotmelt remover

The benefits at a glance

- NSF-A1 registered
- Very high dissolving power
- Penetrates and dissolves residues of dispersion adhesives and hotmelts
- Free of orange terpenes

NSF®

Properties

Rivolta N.I.T. is a user-friendly cleaner for the removal of stubborn impurities, which are difficult to remove like residues of dispersion adhesives and hotmelts.

Due to its innovative chemical composition, **N.I.T.** is NSF-A1 listed and therefore suitable for cleaning tasks in particularly sensitive areas, e.g. in the food and pharmaceutical industries.

Fields of applications

Rivolta N.I.T. is particularly suitable to remove stubborn adhesive residues from machine and equipment surfaces as well as applicators.

Form	liquid
Colour	colourless
Odour	characteristic

Material compatibility

Rivolta N.I.T. does not attack the metallic surfaces.

We recommend checking the compatibility before use on plastic or painted surfaces.

Instructions for use

Immerse the machine parts to be cleaned in **Rivolta N.I.T.** at room temperature or moisten them with the cleaner. For the processing of **N.I.T.** from the 10l can we recommend our **BL 0.5l Hand sprayer universal** (article number: 800185006). The cleaner can also be applied with a non-fibrous cloth.

The best result is achieved by allowing the cleaner to soak in for a few minutes before wiping. The soaking time depends on the layer thickness of the residues. Suitable application devices and accessories in our [accessories brochure](#).

Available in:

- 500ml spray bottle (PU 6 pcs.)
- 10l can
