Rivolta

S.B.C. Spray

A1-Special cleaner

The benefits at a glance

- NSF-A1 registered
- Reliable degreasing e.g. before a gluing process
- Highly effective combination of active substances
- Rapid evaporation without residues
- Multifunctional in use

Rivolta CASSIDA VITROLIS antidot.

Properties

Rivolta S.B.C. Spray is a cleaning agent that evaporates quickly and without leaving residues.

S.B.C. Spray is based on a combination of highly effective substances, each of which can remove various types of soiling, e.g. grease, oil, adhesive, paint and sealant residues. The evaporation rate and the spray rate of **S.B.C. Spray** are precisely matched to the required exposure time or product quantity. This means that with S.B.C. Spray an exact dosage and thus an economical mode of operation is possible.

S.B.C. Spray is NSF-A1 registered and suitable for cleaning applications in the food, beverage and pharmaceutical industries.

Form	aerosol
Colour	colourless
Odour	characteristic

Fields of Application

Rivolta S.B.C. Spray is particularly suitable for cleaning/degreasing bare metallic surfaces. It is characterised by an excellent dissolving capacity towards oily and greasy soiling as well as adhesive and sealant residues. S.B.C. Spray is only available in a 500ml spray can.

Material compatibility

Some plastics, elastomers and lacquers can eventually be etched by Rivolta S.B.C. Spray. We therefore recommend to test the applicability of the cleaner before use.

Instructions for use

Please spray Rivolta S.B.C. Spray onto the contamination, if required let it react for a short time and subsequently remove the contaminations. A potable water rinse of cleaned surfaces is required after use of this product.
