

S.N.C. 101

Mould cleaner and glue remover

The benefits at a glance

- NSF-A1 listed
- User-friendly
- Flashpoint > +100 °C
- Mild odour
- Highly effective

Properties

Rivolta S.N.C. 101 is a special cleaner ready to use which has been developed especially to remove tenacious polymer and glue residues from metallic surfaces.

The enormous cleaning performance of **S.N.C. 101** results from an innovative 3-phase effect. The material residues are at the same time infiltrated, penetrated and dissolved.

Rivolta S.N.C. 101 is NSF-A1 listed and removes e.g.:

- Polyurethanes, polyacrylates, polyamides, polystyrenes
- Cellulose acetates
- One-component epoxy resin adhesives
- Epoxy resins
- Bitumen
- Oil residues and lacquers

Form	liquid
Colour	light yellow
Odour	soft

Fields of application

Rivolta S.N.C. 101 can be used in all areas of the plastic and glue processing industry, such as e.g.:

- injection moulding industry
- automotive industry
- etc.

Material compatibility

Rivolta S.N.C. 101 is compatible with metals of all kinds and removes from them plastics, elastomers, paints and lacquers.

Instructions for use

Suitable application devices and accessories in our [accessories brochure](#).
