# ASSOCIATED EXPERTISE

## Our Partner Companies

# OUR MISSION

To retain values and create new once

Through our high-quality product range and a superior on-site technical advice we are able to create for our customers:

- Trouble-free production processes
- Extended machine life cycles
- Implementation of a condition-based maintenance programme
- Reduction in breakdowns
- Optimization of operational profit

We are there  
wherever our  
customers need  
us — in person!

# OUR PRINCIPLES

# OUR VALUES

## Bremer & Leguil uphold Values of the Group

### › TRUST

Trust is the basis of our sense of who we are.

### › CREATING VALUES

We provide our customers advanced technology and the best possible service.

We identify and create values.

We create space for innovation and new methods.

We operate as a company within a company.

We empower our people and hold them to their word.

### › INTEGRITY

We believe in moral values and abide by our code of conduct.

### › RESPECT

We face up to our responsibilities with regard to various interest groups, society and the environment.

We demonstrate appreciation and recognition.

We are fair to our partners and staff.

We foster an open culture of debate.

### › RELIABILITY

We keep our word.

We are committed to technological leadership.

We want to continue our record of success.

We act decisively and transparently.

You will find more information about us and our sectors on our webpage
